Sunny Acres Text and Color Styles
Author: Tammy Nielsen
Date: 3/1/2014

Filename:      hs_styles.css
Supporting Files: CloisterBlack.eot, CloisterBlack.svg,
                  CloisterBlack.ttf, CloisterBlack.woff

*/

```

- **hs_stylestxt.css** should be opened as text
- **Your name and the date** should be entered as comment
- File should be saved as **hs_styles.css**

```

/* Web font for cursive fantasy font */

```

```

@font-face {
  font-family: 'CloisterBlack';
  src: url('CloisterBlack.eot');
  src: local('©'),
       url('CloisterBlack.woff) format('woff),
       url('CloisterBlack.ttf) format('truetype'),
       url('CloisterBlack.svg#cloister') format('svg');
}

```

- **CloisterBlack.txt** file should be opened, the CSS code copied
- **hs_styles.css** should be opened
- Copied CSS code should be pasted below the comment header

```

/* Body styles */

```

```

body {
  background-color: white;
  font-family: 'Trebuchet MS', Helvetica, sans-serif;
}

```

A style rule should be created for the page body, background color set to **white**, and default font list set to **Trebuchet MS, Helvetica, sans-serif**

```

/* Navigation list styles */

```

```

☆ {
  nav ul {
    background-color: rgb(248, 175, 175);
    line-height: 3.5em;
    list-style-type: none;
    padding-left: 0em;
    text-indent: 5px;
  }
}

```

```
nav ul li:first-of-type {
  font-size: 150%;
  font-variant: small-caps;
  font-weight: bold;
}
```

```
nav ul li:hover {
  background-color: rgb(148, 51, 62);
}
```

```
nav ul li a {
  color: white;
  text-decoration: none;
}
```

```
nav ul li a:hover {
  color: yellow;
}
```

As users hover the mouse pointer over list items in the nav list, background color should change to (148, 51, 62)

As users hover the mouse pointer over a hypertext link in the nav list, font color should change to **yellow**

/* Figure box styles */

```
figure {
  background-color: rgb(248, 175, 175);
  text-align: center;
}
```

```
figure figcaption {
  font-size: 14px;
  font-style: italic;
  text-align: center;
}
```

j-H

u

- Background color of figure boxes should be set to (248, 175, 175) and contents of figure boxes **centered**

- For the caption within the figure box, styles should be added to:
 - Set font size to **14** px
 - Display text in **italic**
 - Center** caption text

/* Section styles */

```
section h1 {
  background-color: rgb(148, 51, 62);
  color: white;
  font-family: CloisterBlack, fantasy;
  font-size: 2.5em;
  font-weight: normal;
}
```

A A rule should be created for unordered lists within the nav element that:

- Sets the background color to (248, 175, 175)
- Sets line height to **3.5em**
- Removes bullet marker
- Sets width of the padding-left property to **0 px**
- Indents text **5 px**

★ For the first list item, a style rule should be created to:

- Increase font size to **150%**
- Display text in small caps
- Display text in **bold**

★ For every hypertext link within the nav list, a style should be created that removes the underlining and sets font color to **white**

For h1 headings within a section element, a rule should be created to:

- Set background color to (148, 51, 62)
- Set font color to **white**
- Use the font list containing the **CloisterBlack** and **fantasy** fonts
- Set font size to **2.5em**
- Remove boldface
- Set kerning to **0.3em**
- Set line height to **2em**
- Indent text **5 pixels**

```
letter-spacing: 0.3em; }
line-height: 2em;      } A
text-indent: 5px;      } *
}
```

- For h2 headings within a section element, a rule should be created to:
- Set background color to **(182, 134, 52)**
 - Set font color to **white** for older browsers and to **(255, 255, 255)** with **0.8** opacity for newer browsers
 - Set font weight to **normal**
 - Set kerning to **0.7em**
 - Indent text **1em**

```
section h2 {
background-color: rgb(182, 134, 52);
color: white;
color: rgba(255, 255, 255, 0.8);
font-weight: normal;
letter-spacing: 0.7em;
text-indent: 1em;
}
```

```
section h2+ul {
list-style-image: url(flake.png);
}
```

For unordered lists directly after h2 headings within a section element, a rule that displays **flake.png** as bullet marker should be created

```
/* Footer styles */

footer address {
background-color: rgb(148, 51, 62);
color: white;
color: rgba(255, 255, 255, 0.8);
font: normal small-caps 0.8em/4em 'Palatino Linotype', 'Book Antiqua', Palatino, serif;
text-align: center;
}
```

- For address elements nested within footer, a rule has been created to:
- Set background to color **(148, 51, 62)**
 - Set font color to **white** for older browsers and to **(255, 255, 255)** with **80%** opacity for newer browsers
 - Change font style to **normal** weight in small caps, **0.8em** in size with a line height of **4em**, and use fonts from the list **Palatino Linotype, Book Antiqua, Palatino, and serif**
 - Center** address text

Comments should be added to the style sheet

Changes should be saved to the **hs_styles.css** style sheet
